Speech of H.E Chairman & CEO

On behalf of the Board of Directors of Sihanoukville Autonomous Port (PAS), I am honored and pleasure to present the PAS's business and financial reports of 3rd Quarter 2026 for the period ended 30th September 2026.

Under the wise leadership of **Samdech Akka Moha Sena Padei Techo Hun Sen** and **Samdech Moha Borvor Thipadei Hun Manet, Prime Minister of the Kingdom of Cambodia**, the Sihanoukville Autonomous Port (PAS) has seen continuous development, strengthening, and expansion of its capacity. With great pride and honor, despite facing extremely challenging operating, PAS achieved an increase of container throughput of 30.57% in 2025 and continue to increase of approximately 25.45% during the first 9 months of 2026. Meanwhile, PAS is proud to serve as a key international gateway for import and export activities, enabling effective response to emerge challenges, promoting national economic growth, and continuously developing in line with the vision and master plan to transform PAS into Regional Port and Logistics Hub. This reflects the strong and forward-looking vision of the Royal Government of Cambodia with significant support from the Government of Japan.

With the strong support from the Royal Government of Cambodia, the parents ministries (Ministry of Economy and Finance and Ministry of Public Works and Transport), the people and Government of Japan, relevant authorities, stakeholders, and all port users, including officers, staff, and workers who have diligently provided services with strong responsibility. As a result, in 3rd quarter of 2026, PAS achieved a container throughput of 408,789 TEUs, an increase of 10.03%, business revenue amounted to KHR 197,282,115,000, an increase of 16.42%, and total profit after tax amounted to KHR 26,479,319,000, a decrease of 60.11% due to losses on foreign exchange (Unrealized Japanese Yen) compared to 3rd quarter of 2025. Based on this result, earnings per share amounted to KHR 308.72. At the same time, the 445 of vessels calling to PAS, an increase of 3.49% and vessels tonnage reached 7,158,165 tons, an increase of 10.05%. These statistics represent a trend toward larger and deep-draft vessels berthing at the port, which enhances the competitiveness of ocean freight costs and increases overall investment attractiveness.

PAS is committed to contributing with the Royal Government of Cambodia to achieving the Vision 2050 of becoming a high-income country by enhancing service quality, increasing the use of digital transformation, and promoting connectivity, thereby becoming a key gateway for international trade and attracting investment to Cambodia. At the same time, PAS continues to strengthen its human resources by enhancing professional skills, providing comprehensive training, and offering incentives to ensure efficiency, superior value, and rapid service while maintaining competitiveness for our customers. Furthermore, PAS remains committed to continuous improvement in our operations and delivery service to achieve high performance to benefit our shareholders.

- **In response to the increasing Container throughput as well as customers' service demand, PAS has set its main goal as follows:**
  - Operating and developing the Sihanoukville Autonomous Port (PAS) in line with the direction and requirements policy of the Royal Government of Cambodia
  - Implementation of the New Container Berth Development Project-Phase1, Phase2, and Phase3. After completed, this project will allow vessels around the world to directly berth at PAS without any water depth constraints, which will improve ocean freight costs in line with those of other countries in the region.
  - Continuously improve service quality through further repair, maintenance, and development of port infrastructure and handling equipment, close cooperation with port users, and development of human resources, technology, and modern handling equipment in line with international innovations.
  - Collaborate with development partners to conduct step-by-step studies and have a clear plan for constructing a deep-sea port, in line with the vision and growth of container throughput.
  - Strengthen the principle of the Sihanoukville Autonomous Port as "a port for all," contributing to national development and poverty reduction.
  - Participate in local community development activities and promote social welfare.

Acknowledgement

We, management team, officials and employees of the Sihanoukville Autonomous Port would like to express our deepest gratitude to the Royal Government of Cambodia led by **Samdech Moha Borvor Thipadei HUN MANET, Prime Minister of the Kingdom of Cambodia**, the parent ministries (Ministry of Public Works and Transport and Ministry of Economy and Finance), local authorities, the General Department of Customs and Excise, and stakeholders, who have consistently supported and collaborated with the port, providing efficient service quality and earning the trust from our customers, leading to excellent results.

In conclusion, I would like to express my sincere appreciation to the Board of Directors, the management team, and the officials and employees of the Sihanoukville Autonomous Port for their unwavering commitment and high sense of responsibility in the performance of their duties.

Sihanoukville, Dated: 13th November 2026

Delegate of the Royal Government of Cambodia in charge as Chairman & CEO

LOU KIMCHHUN

B. Nature of Business

Sihanoukville Autonomous Port is a significant deep-water seaport in the Kingdom of Cambodia, covering an operational area of approximately 125 hectares. The port is located at the bay of Kampong Som, which represents the only deep-water seaport in Cambodia, playing a critical role in facilitating maritime transportation. The port benefits from natural features such as deep water, islands, windbreaks, and large waves, which help ensure smooth operations. These natural advantages contribute to the port's efficient operation, as it does not require regular dredging for vessel navigation.

PAS serves as a distribution and supply center, incorporating a comprehensive transportation network that includes various modes of transport to facilitate services for customers and port users. PAS is connected to the capital city, Phnom Penh, via National Road No. 4, which spans 226 kilometers, or alternatively, through National Road No. 3, passing through Kampot Province, with a length of 244 kilometers, or via an expressway that measures 187 kilometers. In addition to the road networks, PAS is also linked by a railway line extending from Phnom Penh to Kampot Province, with a total length of 264 kilometers. Furthermore, the port is accessible by air, with connections from Siem Reap, Phnom Penh, Vietnam, Thai and China to Sihanoukville International Airport.

As the port authority and operator, PAS offers business services as follows:

- Pilotage service, bringing vessels in-out and providing logistics supplies
- Conducting cargo handling, offloading, loading operation
- Cargo storage at warehouse and yards
- Transporting Cargo
- Special Economic Zone
- Transshipment.

PAS has a total quay length of 1,860 meters and is divided into 13 berths as follows:

No	Terminal	Type of Goods	Length (m)	Width (m)	Berth Number
1	Passenger Terminal (Old Jetty)	Passengers and General Cargo	290	28	Berth No. 1 and No. 3: 9m to 13m draft for ships with 8.5m alongside depth. Berth No. 2 and No. 4: 6.5m to 8m draft for ships with 7m alongside depth.
2	Additional Container Terminal	Container	350	500	Berth No. 5 (West) 97m length for general cargo ships and No. 6 (East): 253m length and 10.5m alongside depth which allows container vessels with a depth of 9.5m.
3	Container Terminal	Container	400	350	Berth No. 7 and No. 8: 11.5m draft for ships with under 10.5m alongside depth.
4	Multipurpose Terminal	Passengers, General Cargo, and Oil Exploration Logistic Base	330	200	Multipurpose Terminal with 330m length and 13.5m depths for bulk and general cargoes which allow vessels with 50,000 DWT and the Berth for Logistic Base Oil Exploration with 200m length and 7.5m depths for the offshore oil exploration in the territory of Cambodia.
5	Concrete Wharf	Petroleum	53	5	Petroleum port: 4.5m draft with under 80m in length. Mooring and unmooring facilities have been prepared for berthing alongside of ships with under 6m and 110m in length.

- Railway Container Yard

  Apart from the above terminals, in cooperation with Royal Railway Co., Ltd, PAS has also established a railroad operational system and container yard within the port's premises so that customers or cargo owners can transport containers from PAS to Phnom Penh and vice versa.

- Sihanoukville Port Special Economic Zone

  In addition to the business and services mentioned above, PAS also operates the Sihanoukville Port Special Economic Zone covering an area of approximately 64 hectares, located near the port, and has been constructed in accordance with the standards and technical specifications of Japan.

C. Quarter's Key Events

In third quarter of 2026, PAS has key events such as:

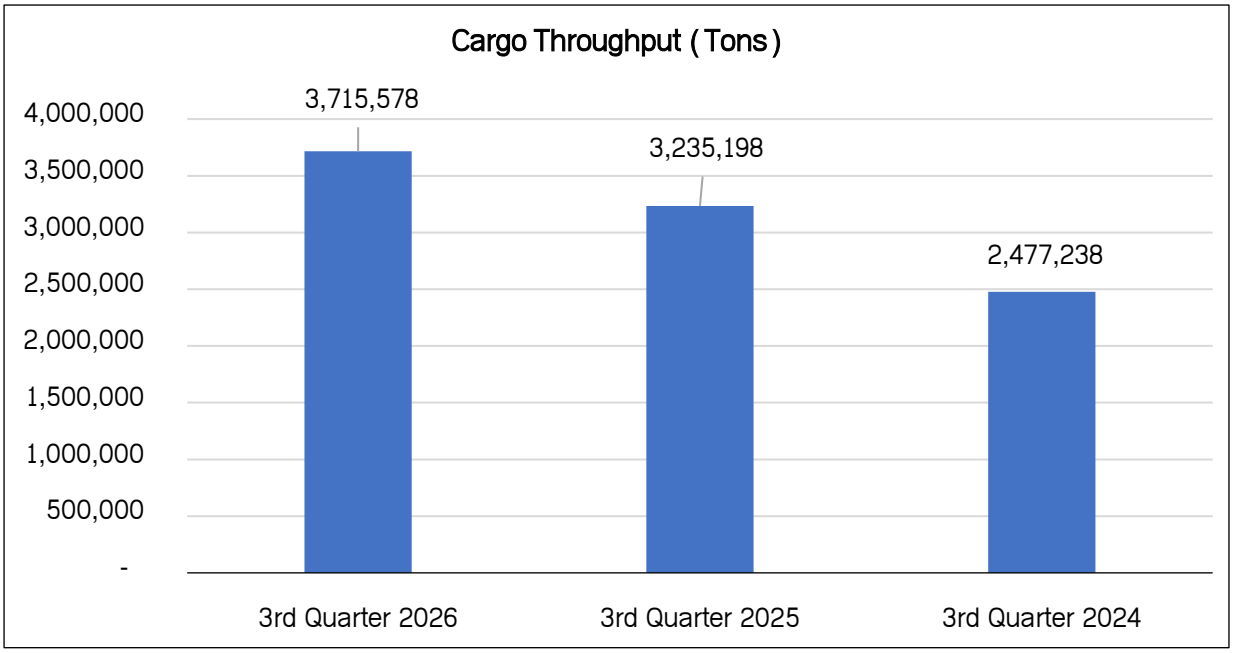

- On September 28th, 2026, His Excellency Dr. Sok Siphana, Senior Minister in charge of Special Missions and Chairman of the Trade Policy Advisory Board (TPAB) presided on "Global Economic Trends Affecting Cambodia: The Current Situation in the United States Following the Implementation of the International Emergency Economic Powers Act (IEEPA), the Impact of China's Economic Wave 2.0, and Strategic Pathways for the Development of Cambodia's Industrial Sector.", participated by senior managements, officials, Administrative of Sihanouk Provincial, Customs and Excise Branch of Sihanoukville Autonomous Port, the Immigration Police of Sihanoukville International Port, and officials from various provincial departments and institutions.

Management's Discussion and Analysis

A. Overview of Operations

The Sihanoukville Autonomous Port (PAS) is the main deep-sea port of the Kingdom of Cambodia, with an operating area of approximately 125 hectares, located at Terak Vithei Moha Sena Padei Techo Hun Sen, Sangkat 3, Sihanoukville, Sihanoukville Province as specified in Sub-Decree No. 50 ANKR/BK dated 17th July 1998.

In 3rd quarter of 2026, PAS achieved cargo throughput of 3,715,578 tons, an increase of 14.85%. Container throughput was 408,789 TEUs, an increase of 10.03%, while the number of calling vessels was 445 vessels, an increase of 3.49%, total tonnage of vessel was 7,158,165 tons, an increase of 10.05% compared to 3rd quarter of 2025.

PAS has the following main sources of revenue:

- Revenue from Port Charges for Vessel Services is revenue derived from shipping services and vessel berthing, including revenue from tonnage charge, berthage charge, pilotage, tug assistance fee, mooring and unmooring, hatch opening and closing, and garbage collection from ships.
- Revenue from Stevedoring Charges is revenue derived from the handling of general cargo or containers, transferring and loading from ships to the pier.
- Revenue from Lo-Lo Charges is revenue derived from the handling of general cargo or containers on the yard.
- Revenue from Storage Fees is revenue derived from the storage of general cargo or containers in warehouses and yards.
- Transportation Charges are revenue derived from cargo or container transportation services.
- Revenue from the Special Economic Zone is revenue derived from leasing land in the Sihanoukville Autonomous Port's Special Economic Zone.

PAS maintains accounting records and financial statements in KHR, the national currency, while transactions in other international currencies are presented in KHR using the daily official exchange rate of the National Bank of Cambodia on the date of each transaction. The discussion and analysis of the financial and business performance of PAS are based on the condensed interim financial information (unaudited) by independent auditors for the 3rd quarter 2026, as presented in the appendix of this report.

1. Revenue Analysis

Comparative Table of Revenue for the 3rd Quarter 2026 and 3rd Quarter 2025

Description	3rd Quarter 2026	3rd Quarter 2025	Changes	
	KHR '000	KHR '000	KHR '000	Percentage
Revenue	197,282,115	169,455,668	27,826,447	16.42%

In third quarter 2026, PAS's revenue increased by KHR 27,826,447,000 equivalent to 16.42% compared to 3rd Quarter 2025. This increase in total revenue was due to the rise in revenue from Stevedoring Charges, Lo-Lo Charges, Port Charges for Vessel Services, and Storage Fees for cargoes or containers at warehouse and yard.

Based on above comparative table, four revenues categories have contributed significantly to the increase of PAS business revenue (service), approximately 98% as follows:

1. Revenue from Stevedoring Charges
2. Revenue from Lo-Lo Charges
3. Revenue from Port Charge Services
4. Revenue from Storage Fees (warehouse and yard)

Comparative table of Revenue by major business segments for the 3rd Quarter 2026 and 3rd Quarter 2025

Description	3rd Quarter 2026	3rd Quarter 2025	Changes	
	KHR '000	KHR '000	KHR '000	Percentage
Stevedoring Charge	93,937,407	80,765,060	13,172,347	16.31%
LOLO Charge	49,501,217	43,165,902	6,335,315	14.68%
Port Charge for Vessel Services	32,492,909	27,593,268	4,899,641	17.76%
Storage (Warehouse and Yard)	18,844,237	14,813,508	4,030,729	27.21%

In third quarter 2026, revenue from Stevedoring Charge increased KHR 13,172,347,000 equivalent to 16.31%, Lo-Lo Charge increased KHR 6,335,315,000 equivalent to 14.68%, compared to the 3rd quarter 2025. These two major revenue streams increased correspondingly with the growth in container throughput at PAS, increased 10.03%. As for the revenue from Port Charge for Vessel Services, it depends on the number of vessels and vessel tonnage. In 3rd quarter 2026, the total number of vessels calling to PAS increased by 15 vessels, equivalent to 3.49%, and vessel tonnage increased 653,796 tons, equivalent to 10.05%, leading to an increase in revenue from Port Charge for Vessel Services of KHR 4,899,641,000, equivalent to 17.76%. For the revenue from Storage Fees at warehouse and yard, increased KHR 4,030,729,000, equivalent to 27.21%, was due to the increase of container throughput and cargo storage in container yards and warehouses.

3. Gross Profit Margin Analysis

PAS had prepared its resulting reports in the form of a specification report and therefore there was no disclosure of the gross profits. However, the format of this report can enable us to discuss and analyze the operating profit derived from the gross revenues minus the operating expenses.

The operating expenses will be discussed and analyzed in the following section 4, the analysis of profit/(losses) before tax.

4. Profit/(Losses) before Tax Analysis

The profit/(losses) before tax is the result derived from the total revenue minus the operating expenses and other gains/losses-net as follows:

Comparative Table of Profit/(Losses) before Tax Analysis for 3rd Quarter 2026 and 3rd Quarter 2025

Description	3rd Quarter 2026	3rd Quarter 2025	Changes	
	KHR '000	KHR '000	KHR '000	Percentage
Revenue	**197,282,115**	**169,455,668**	**27,826,447**	**16.42%**

Repairs and Maintenances	(611,596)	(594,642)	16,954	2.85%
Other Expenses	(12,376,348)	(15,138,000)	(2,761,652)	(18.24%)
Other Gains /(Losses)-net	3,636,464	9,904,793	(6,268,329)	(63.29%)
Finance Income/(Costs)-net	(29,388,976)	12,261,721	(41,650,697)	(339.68%)
Profit before income tax	**44,522,098**	**82,376,422**	**(37,854,324)**	**(45.95%)**

In third quarter 2026, the total expense of consumable supply was KHR 45,461,512,000, an increase of KHR 14,303,888,000, equivalent to 45.91%, compared to 3rd Quarter 2025. This change was mainly due to fluctuations in fuel prices, which caused the Combustible expense to increase of 54.59%.

The basis for calculating PAS's salaries are based on output (revenue from stevedoring), meaning that when revenue from stevedoring increases, salary expenses will increase, and vice versa, if revenue from handling decreases, salary expenses will decrease accordingly. The revenue from stevedoring increased by 16.31%, and from Lo-Lo increased by 14.68% in 3rd quarter 2026. As for salary, wage, and related expenses, there was an increase of 9.99%, equivalent to KHR 4,579,452,000, compared to 3rd Quarter 2025 which is in accordance with the increase in PAS´s revenue.

Depreciation and Amortization charge (property and equipment, investment properties and intangible assets) in 3rd Quarter 2026, in a total amount of KHR 18,122,089,000, increased by KHR 1,623,103,000 equivalent to 9.84%, compared to 3rd Quarter 2025.

Repair and maintenance expenses in 3rd Quarter 2026, increased by KHR 16,954,000, equivalent to 2.85%, compared to 3rd Quarter 2025.

Other Expenses in 3rd Quarter 2026, decreased by KHR 2,761,652,000, equivalent to 18.24%, compared to 3rd Quarter 2025.

Other Gains/(Losses)-net refer to gains or losses from currency exchange at the settlement period (Realized Foreign Exchange Gains/(Losses)). For 3rd Quarter 2026, there was a gain of KHR 3,636,464,000.

Finance Income/(Costs)-net refers to interest income, interest expenses on borrowings and loan from banks and unrealized foreign exchange gains/losses. In 3rd Quarter 2026, PAS recorded net finance costs of KHR 29,388,976,000, mainly due to an unrealised foreign exchange loss on its Japanese yen loan from the Ministry of Economy and Finance (MoEF), funded by JICA.

The profit before tax for 3rd quarter 2026 was KHR 44,522,098,000 decreased by KHR 37,854,324,000 equivalent to 45.95%, compared to 3rd quarter 2025, where the profit before tax was KHR 82,376,422,000.

5. Profit/(Losses) after Tax Analysis

PAS is under the law of business companies. Hence, in the field of taxation and VAT; PAS has the obligation to pay tax on annual profit 20% rate.

After listing Initial Public Offering (IPO), Sihanoukville Autonomous Port (PAS) received tax incentives in the securities sector for three years (from 2017 to 2019). Therefore, since 2020, PAS has fulfilled its obligation to pay the annual profit tax at 20% rate.

Comparative Table of Profit/(Losses) after Tax Analysis for the 3rd Quarter 2026 and 3rd Quarter 2025

Description	3rd Quarter 2026	3rd Quarter 2025	Changes	
	KHR '000	KHR '000	KHR '000	Percentage
Profit before income tax (A)	44,522,098	82,376,422	(37,854,324)	(45.95%)
Income tax expense (B)	(18,042,779)	(15,993,832)	2,048,947	12.81%
Profit for the period	**26,479,319**	**66,382,590**	**(39,903,271)**	**(60.11%)**
Total comprehensive income attributable to shareholders	26,479,319	66,382,590	(39,903,271)	(60.11%)
Effective Tax Rate (B)/(A)	**40.53%**	**19.42%**		

PAS achieved profit for the period of KHR 26,479,319,000 for 3rd Quarter 2026, decreased by KHR 39,903,271,000 equivalent to 60.11%, compared to the 3rd Quarter 2025, was due to the increase in losses on foreign exchange (Unrealized Japanese Yen).

The effective tax rate on profit increased from 19.42% in 3rd Quarter 2025 to 40.53% in 3rd Quarter 2026, due to an increase of Income tax expense followed by an increase of Revenue.

6. Factors and Trends Analysis affecting financial conditions and results

Several factors can influence the financial position and performance of PAS, such as:

- **Impact of regional and global trade:** Since PAS's main source of revenue comes from the flow of goods through international trade, factors that affect international trade will have an impact on PAS's business. These factors include economic conditions in the country, region, and world, social stability, security issues, or maritime cooperation. According to the International Monetary Fund (IMF), the global economy will grow at an estimated rate of 3% for 2026, while the Cambodian economy will grow by about 3.9% according to the Asian Development Bank (ADB). These figures show that the Cambodian economic situation remains resilient and strong, which is a positive factor for the port business.
- **PAS's operational capacity and efficiency:** After commissioning the additional 253-meters container Terminal Berth, along with the installation of container handling equipment, the dredging of all three berths, and the expansion of the Berth yard area, the total port capacity is 1,000,000 TEUs per year. This factor leads to an increase in port capacity, operational productivity, and handling efficiency to meet customer demand and the growth in the volume of containers throughput at PAS.
- **Status of domestic transport networks:** PAS is connected to domestic transport networks, such as National Road 4, National Road 3, and the expressway, which connect PAS to the hinterland of the country smoothly. As for rail transport, currently, in cooperation with Royal Railway, rail transport has increased by 6 to 7 times per week to transport goods in and out, and this rail transport is proceeding smoothly as usual without any delays.
- **Cooperation between PAS and regional ports:** Sihanoukville Autonomous Port (PAS) is connected with major regional ports, facilitating cooperation with potential Japanese stakeholders and regional ports, which is crucial for smoothing the flow of goods to the global market. To ensure smooth operations and transport, PAS has strived to maintain good relationships with key regional ports.
- **Depreciation:** Since PAS's business (services) uses a lot of infrastructure, depreciation expenses on port infrastructure such as berths, machinery, and buildings are relatively large, which can affect PAS's business performance. Therefore, PAS needs to have appropriate depreciation policy to reviews and adjust as needed at each financial reporting date. For the 3rd Quarter 2026, there were no revisions or requests for revisions to this depreciation policy from the independent auditor.

B. Significant factors affecting Profit

1. Demand and Supply Conditions Analysis

The business activities of the Sihanoukville Autonomous Port (PAS) are directly related to the national economy, regional economy, and global economy. When the national economy changes, it will directly affect the port's business and services. That is, when the national economy grows, the port's business and services also grow accordingly, and PAS's revenue also increases. Conversely, if the national economy declines, it will also have a negative impact on PAS's revenue. According to the Asian Development Bank (ADB), the Cambodian economy is expected to grow at a rate of approximately 3.9%, while the global economy is expected to grow at a rate of approximately 3% (IMF) for 2026. However, PAS may be affected by supply and demand factors due to war and the global crisis, especially the conflict in the Middle East has significantly impacted rising fuel prices.

2. Fluctuations in Prices of Raw Materials Analysis

Fuel is the most important raw material for port services, as it is a key requirement for the operation of machinery. However, the Sihanoukville Autonomous Port (PAS) maintains its service prices regardless of fluctuations in fuel prices. Therefore, PAS has strictly implemented procurement procedures to ensure that the prices of these raw materials are appropriate and competitive in the market.

3. Tax Analysis

PAS is under the law of business companies in the field of taxation; therefore, PAS has the obligation to pay tax in accordance with the laws and regulations in force. PAS must pay tax in accordance with the self-declaration of income and was determined as a large taxpayer by the General Department of Taxation. Regarding tax on income, PAS will be obligated to pay at 20% rate starting from year 2020 after receiving the tax incentive for three years. While other kinds of taxes, PAS has implemented its obligation according to the law on taxation of the Kingdom of Cambodia.

C. Material Changes in Sales and Revenue

PAS's main revenues, including stevedoring and storage, and port service revenue, contributed approximately 98% of PAS's total revenue 3rd Quarter 2026. The main factor driving the increase in revenue was the growth in container throughput at the port. Growth in the agricultural, commercial, construction, and industrial sectors reflects the national economic situation of Cambodia and, in line with this, has a positive impact on PAS's business, services, and revenue.

D. Impacts of Foreign Exchange, Interest Rates and Commodity Price

1. Impact of Exchange Rates

PAS has received sub-loans through the Ministry of Economy and Finance from JICA and JBIC, requiring PAS to repay principal and interest in Japanese Yen and US Dollars, while PAS's functional currency is the KHR. Therefore, fluctuations in the KHR exchange rate against the US Dollar, the KHR against the Japanese Yen, and the US Dollar against the Japanese Yen affect PAS's profitability.

2. Impact on Interest Rates

Currently, PAS has no loans with variable interest rates. PAS has received loans from the Ministry of Economy and Finance, which are sub-loans from JICA and JBIC at interest rates ranging from 2.65% to 3.70%. Therefore, for the 3rd quarter of 2026, there is no impact from interest rate fluctuations.

3. Impact of Fuel Price Fluctuations

Changes in fuel prices will affect PAS's profitability, as port operations use handling equipment that is heavily dependent on fuel. Therefore, PAS continues to strengthen handling efficiency and container yard management, as well as connecting to the medium-voltage electricity grid to reduce operating costs and improve service quality.

E. Impacts of Inflation

PAS has kept its service charges stable without making any modification or amendment according to the change in inflation and still retains its financial stability.

F. Economic/Fiscal/Monetary Policy of Royal Government

The policy on economy, tax system, and currency of the Government has a strong influence on PAS′s business performance since this policy is aimed at supporting and stimulating international trade and yielding positive results on PAS′s performance. The main policies of the Royal Government are:

- Industrial Promotion Policy: The Royal Government has prepared a master plan to transform Sihanoukville into a multi-purpose special economic zone in line with the Cambodian Industrial Development Policy (IDP).
- Policy on promoting Waterway Transport: The Royal Government of Cambodia has a keen vision and willingness to build the Funan Techo Canal for independence, expand waterway logistics transportation to Cambodia's international seaports.
- Policy on saving time and related cost of transportation through the Express Way from Phnom Penh – Sihanoukville.
- Policy on promoting rice and agro-industry product export to foreign markets is yielding positive results to PAS.
- Policy on international trade stimulation, thereby trying an effort to cut down trade barriers involving trading process between Cambodia and other partner countries in the world.
- The Royal Government, through the National Bank, has implemented the currency policy through the free currency exchange market mechanism under the intervention to stabilize the national currency, and the balance of this currency has secured the stability of Cambodia′s Macro Economy, which built confidences for the investors and encouraged private sectors′ business operation.
- The tax incentive in stock market sector to various listed enterprises in Cambodia has been stimulating more public enterprises and private companies to be incorporated into stock exchanges market to contribute to the development of the national economy.

Part 5

Other Necessary Information for Investor Protection

In third quarter 2026, PAS has additional essential information for investor protection which is outlined below:

- The Government of Japan has dispatched a JICA mission team to study the details of the Master Plan for the Future of Sihanoukville Autonomous Port by 2050 to make Sihanoukville Autonomous Port into Cambodia's core container deep seaport and regional port and logistics hub which is the wisest vision of **Samdech Techo Hun Sen**, continued by **Samdech Moha Borvor Thipadei Hun Manet, Prime Minister of the Kingdom of Cambodia** supported by the Government of Japan and as of the end of June 2026, the JICA Expert Team has completed the Geotechnical Survey and the Seismic Survey.
- By 3rd Quarter 2026, construction of the New Container Terminal – Phase 1, length of 350 meters, water depth of -14.5 meters, had achieved 77.15% completion, exceeding the planned progress 74.53% (+2.62%), the construction is expected to be completed by March 2027.

Report on review of condensed interim financial information

To the shareholders of Sihanoukville Autonomous Port

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Sihanoukville Autonomous Port (PAS) as at 30 September 2026 and the statements of profit or loss and other comprehensive income for the three-month and nine-month periods then ended, the related statements of changes in equity and cash flows for the nine-month period then ended and the condensed notes to the condensed interim financial information. Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with Cambodian International Accounting Standard 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with Cambodian International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Cambodian International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

1. GENERAL INFORMATION

The Sihanoukville Autonomous Port (PAS) is a public institution listed on Cambodia Securities Exchange (CSX) which is under the technical supervision of the Ministry of Public Works and Transport (MoPWT) and the financial supervision of the Ministry of Economy and Finance (MoEF), with its headquarters in Preah Sihanouk Province, the Kingdom of Cambodia.

PAS is a legal entity with autonomous administration and financing and was established in accordance with Sub-decree 50 ANKR BK dated 17 July 1998, which gave it the general status as a public autonomous institution.

PAS was registered as a state-owned public enterprise with the Ministry of Commerce and obtained the registration number Co.4784 ET/2017, dated 21 February 2017. Its shares of class C were listed on the Main Board of Cambodia Securities Exchange (CSX) on 8 June 2017.

PAS is currently the sole international and commercial deep-sea port in the Kingdom of Cambodia. According to the Sub-decree, the mission of PAS is to provide the following seaport services and seaport related services which include:

- bringing vessels in and out and providing them with supplies;
- conducting cargo handling, offloading, loading and transporting;
- maintaining and safeguarding stocks, warehouses and yards;
- developing, rehabilitating and expanding PAS's existing infrastructures;
- taking responsibility on health care, security and order in its management areas; and
- committing to manage and organize the operational activities to be effective and progressive.

PAS also operates a Special Economic Zones, operating leases, as a lessor.

In the status as public autonomous institution, PAS has obtained an extensive authority and major duties from the Royal Government of Cambodia to carry out its activities in accordance with its objectives.

The registered office of PAS is Terak Vithei Samdech Akka Moha Sena Padei Techo Hun Sen, Sangkat No. 3, Sihanoukville City, Preah Sihanouk Province, the Kingdom of Cambodia.

The condensed interim financial information was approved for issue by the Board of Directors on 6 November 2026.

This condensed interim financial information for the three-month and nine-month periods ended 30 September 2026 has been reviewed but not audited.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

2.1 Basis of preparation

This condensed interim financial information for the three-month and nine-month periods ended 30 September 2026 has been prepared in accordance with Cambodian International Accounting Standards 34 - Interim Financial Reporting (CIAS 34).

The condensed interim financial information does not include all the notes of the type normally included in the annual audited financial statements. Accordingly, this report is to be read in conjunction with the annual audited financial statements for the year ended 31 December 2025, which have been prepared in accordance with the Cambodian International Financial Reporting Standards (CIFRS).

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended CIFRS accounting standards as set out below.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)

2.2 New and amended standards adopted by PAS

The following standard applies for the first time to financial reporting period commencing on or after 1 January 2026

- Amendments to the Classification and Measurement of Financial Instruments – Amendments to CIFRS 9 and CIFRS 7

These amendments:

- clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system.
- clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion.
- add new disclosures for certain instruments with contractual terms that can change the cash flows; and
- update the disclosures for equity instruments at fair value through other comprehensive income (FVOCI).

There is no material impact on the interim financial information.

3. MANAGEMENT JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of condensed interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this condensed interim financial information, the significant judgements made by management in applying the PAS' accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 31 December 2025.

4. FINANCIAL RISK MANAGEMENT

4.1 Financial risk factors

PAS' activities expose it to a variety of financial risks: market risk (including foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The condensed interim financial information does not include all financial risk management information and disclosures required in the annual financial statements and should be read in conjunction with PAS's annual financial statements for the year ended 31 December 2025.

4.2 Fair value of financial assets and financial liabilities measured at amortized cost

The methods and assumptions used in estimating the fair values of financial instruments are as follows:

(a) Cash and cash equivalents and short-term bank deposits - The carrying values of these amounts approximate their fair values due to their short-term nature.

(b) Trade and other receivables - The carrying amounts or current portion less impairment provisions approximate the fair value because these are subject to normal credit terms and are short-term in nature. For the non-current portion of advance to MoPWT, it has a fair value KHR 17,649 million as at 30 September 2026, compared to a carrying amount of KHR 20,180 million. The fair values were calculated based on cash flows discounted using a current lending rate from MoEF. They were classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit risk.

4. FINANCIAL RISK MANAGEMENT (continued)

4.2 Fair value of financial assets and financial liabilities measured at amortized cost (continued)

(c) Trade and other payables - The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

(d) Retention payables - The carrying amounts of retention payables are considered to be the same as their fair values, due to their short-term nature.

(e) Borrowings - The fair value is estimated by discounting the future contractual cash outflows using the current borrowing rates.

During the period, PAS has not changed the methods and assumptions used to estimate the fair value of financial instruments and there were no transfers within the fair value hierarchy.

5. SEGMENT INFORMATION

PAS has a reportable segment which is composed of its port services as follows:

- Stevedoring charges
- Lift-On Lift-Off (LO-LO)
- Port due/charge services
- Container storage

No operating segments have been aggregated to form the above reportable operating business segment.

The Chief Operating Decision-Maker (CODM), which is the management team, reviews the internal management report, which reports the performance of the port service segment as a whole, to assess performance and allocate resources. The CODM assesses the performance of the reportable segment by measuring gross revenue (Note 22). CODM also reviews profit before tax and net profit as a whole compared to prior period. In addition, PAS also has investment properties in the Special Economic Zone (SEZ) and other locations of which it is operating as a lessor and earns rental income (Note 7).

Significant revenues are derived from PAS' external customers. PAS is domiciled in Sihanoukville and major revenues originate from Sihanoukville and the surrounding areas.

Revenues were generated from PAS' major customers, each of which contributed 10% and more to the total reportable segment revenues for the three-month and nine-month periods ended 30 September 2026 are as follow:

9. INVESTMENT IN ASSOCIATE

The Royal Government of Cambodia has a vision and strong direction to build the Funan Techo Canal for the expansion of waterborne logistics transportation to Cambodia's international seaports and inaugurated the Funan Techo Canal project on 5 August 2024. At the same time, the Royal Government has designated two state-owned public entities (Sihanoukville Autonomous Port and Phnom Penh Autonomous Port) to participate with the Royal Government, in which the PAS has invested 26% investment capital and has signed a joint venture agreement with Funan Techo Inland Waterways and Logistics Company Limited (FTIWL). FTIWL is registered with the Ministry of Commerce of Cambodia, and the proportion of ownership interests is the same as the proportion of voting rights held. FTIWL operates the Funan Techo Canal to expand domestic waterborne logistics transportation to international seaports. The Funan Techo Canal will play a significant role in supporting the PAS to become a multimodal transport, including land, air, water, and rail transport, so that PAS can quickly achieve a highly competitive economy and attract larger ships to dock without having to tranship at the main port in the other country. The nature of the relationship is an investment in associate. PAS has paid its initial share capital on 15 March 2025. For the nine-month period ended 30 September 2026, FTIWL is at an early stage and has no significant activities.

(i) Borrowing MoEF- (JBIC) and (JICA)

Royal Government of Cambodia (RGC) represented by MoEF signed borrowing agreements with Japan International Cooperation Agency (JICA) and Japan Bank for International Cooperation (JBIC) to support PAS's business expansion projects. PAS signed separate borrowing agreements with RGC represented by MoEF with the arrangement that JICA and JBIC will disburse directly to the suppliers of PAS. Repayments of borrowings are made by PAS to MoEF following the repayment schedules.

(ii) Borrowing from MoEF

This is a borrowing from the MoEF for the purpose of investing in Funan Techo Canal Innovest Co., Ltd. to support Canal Funan Techo project.

16. BORROWINGS (continued)

(ii) Borrowing from MoEF (continued)

The maturity dates of these loans and borrowings are as follows:

	30 September 2026 KHR'000	31 December 2025 KHR'000

On 10 February 2023, PAS received the building construction of container freight station with construction value of KHR 5,156,339 thousand (equivalent to US$ 1,271,914) from the Government of Japan through Royal Government of Cambodia as grant under the purpose of contributing to the implementation of the Economic and Social Development Programme. On 1 April 2023, PAS recognised the container freight station as building under property and equipment and related deferred government grant at the construction value. The depreciation of the container freight station and related grant income will be released to profit or loss over estimated asset useful life of 30 years. There are no unfulfilled conditions or contingencies attached to the grant.

On 20 November 2023, PAS received the seaport equipment of two mobile harbor cranes with value of KHR 45,645,773 thousand (equivalent to US$ 11,079,071) from the Government of Japan through Royal Government of Cambodia as grant under the purpose of contributing to the implementation of the Economic and Social Development Programme. On 20 November 2023, PAS recognised the mobile harbor cranes as seaport equipment under property and equipment and related deferred government grant at the equipment value. The depreciation of the mobile harbor cranes and related grant income will be released to profit or loss over estimated asset useful life of 15 years. There are no unfulfilled conditions or contingencies attached to the grants.

According to 'exchange note' between the Royal Government of Cambodia (the Recipient) and the Government of Japan dated 16 December 2021, the products and/or services given under the grants are maintained and used properly and effectively for the implementation of the Economic and Social Development Programme and other purposes. Furthermore, the products and/or the services under the grant are utilised, in principle, by end-users including the Recipient itself, for non-commercial purposes.

(a) Interest income represents interest earned from savings and fixed deposit accounts held at local banks during the period.

(b) Interest expenses represent the interest charges on borrowings obtained from the MoEF, which are funded through borrowings obtained from JICA and JBIC (Notes 16 and 29).

(c) PAS has borrowings (Note 16) which are denominated in Japanese yen (JPY) and US dollar (US$). Given the fluctuations in KHR against JPY and US$, this resulted in significant exchange losses/gains on its borrowings. The exchange rates are based on the exchange rates published by the National Bank of Cambodia as at the end of reporting period.

27. INCOME TAX EXPENSE

Taxes are calculated on the basis of current interpretation of the tax regulations enacted as at reporting date. The management periodically evaluates position taken in tax returns with respect to situations in which applicable tax regulation is subjected to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

However, these regulations are subject to periodic variation and the ultimate determination of tax liabilities will be made following inspection by the tax authorities. Where the final tax outcome of these matters is different from the amounts initially recorded, such differences will impact the tax liabilities and balances in the period in which the determination is made.

28. EARNINGS PER SHARE

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of PAS by the weighted average number of ordinary shares in issue during the period.
